Very good, but needs more Byakuren.. The pack is awesome I love it Koishi komeiji. It is great to see 3 extremely popular characters to be released via DLC and probably alot of people playing were panicing on how to unlock them if you didnt see the all them Sakuya fans heavy breathing.

I feel very neutral towards this dlc pack as 2\/3 characters here are game breaking it isn't negative but this can cause some moments where the game can be very easy even on Lunatic

Neutral and why:
+\/- SUIKA HAS A HUUGE INVICIBILITY FRAME ON HER DASH this lets boss fights go from memorization to just dash through attacks this can be a plus or and minus for some players
+\/- Koishi the stage breaking subconscience just spam space bar and left click to win
+\/- Sakuya high risk I need to wait 5 seconds for a new knife hero, you can get knives back from after they hit something and drop from being thrown or, you can dash to regain a knife. The problem is you can be stuck in a position with no ammo on hand to attack unless you micro manage every knife drop perfectly (switching characters will NOT allow her to regain knives over time)

Con:
- no color swap ability

If you want a fresh breath of playing stages this pack can help you overcome certain challenges and hell even play as your favorite character maybe!. Nice Skill and Damage. Should be called: The Flat Pack. For my waifu.

Koishi Komeiji is inside.

Nuff said

. Sakuya is mainly OP

Koishi is mainly Stealthy

Suika is mainly Vodka. i have found my queen.. The Flat Club. The perfect DFC DLC pack.. More characters is always good :D
